

## **Electrical and Electronics Engineering Faculty Position at Antalya International University**

Antalya International University (AIU) in Turkey invites applications for tenured or tenure-track faculty positions in electrical and electronics engineering. ***Disciplinary areas of particular interest to this search include, but not limited to, information theory, telecommunication systems, microelectronics, biomedical engineering, signal processing, optics, photonics, microwave applications, power electronics, power distribution, electric vehicles, smart grid, and renewable energy.*** The position is anticipated to be filled at the assistant professor rank, however, appointments at the associate and full professor levels might be considered for outstanding candidates.

The targeted start date for the position is September 1, 2017, and the search will remain open until the position is filled. The successful candidate will be expected to teach undergraduate and graduate courses in a field of electrical and electronics engineering, develop a sponsored research program, advise and mentor students at the undergraduate and graduate level, collaborate with other faculty in multidisciplinary research, interact and participate in outreach activities, and be involved in service to the institute and the profession. The successful applicant must have earned a Ph.D. degree in electrical and electronics engineering or in a closely related field, and should have an excellent command of English. Applicants must have evidence of scholarship/research and record of external funding for research for consideration of appointment at the associate or full professor level.

AIU is a private institution founded in 2011 and located in Antalya, Turkey. The medium of instruction is English. AIU has established an international education services office and is rigorously recruiting foreign students with an objective to have 50% of the incoming freshmen being non-Turkish citizens in the next five years. AIU is an equal opportunity employer. It socially and financially supports its faculty members. Salary is very competitive and commensurate to rank, experience and qualifications. Several fringe benefits may apply.

Applicants should submit a cover letter, curriculum vitae, a one-page statement of teaching philosophy, a two-page statement of research interests and objectives, and the names and contact information for at least three references as a single PDF file to: [ee\\_recruit@antalya.edu.tr](mailto:ee_recruit@antalya.edu.tr). Please format the file name as *Last Name\_EE Engineering Application* and include "EE Faculty Search" in the subject line of the email. Short-listed candidates will be individually informed of their selection for formal interviews.

Review of applications will begin immediately, and continue until the positions are filled. For further information AIU Engineering Faculty, please visit: <http://eng.antalya.edu.tr>
